🏦 MFI Clarity — User Guide

> ***The Complete Microfinance Management Platform for Africa*** *Regulatory-compliant · Offline-capable · Multi-country ready*

📋 Table of Contents

1. Getting Started
2. Executive Dashboard
3. Client Management
4. Loan Management
5. Repayments & Collections
6. Field Operations (Offline)
7. Regulatory Compliance
8. Financial Reports
9. Board & Investor Views
10. Department Reports
11. User Management & Roles
12. Settings & Configuration
13. Offline Sync & Conflict Resolution
14. Sales Demo (Multi-Country)
15. Quick Reference

🚀 Getting Started

Step 1: Activate Your License

Navigate to `/activate` and enter the license key provided by your MFI Clarity account manager.

License Tier	Max Users	Features
🟢 **Starter**	5	Core loan & client management
🔵 **Pro**	25	Full regulatory + financial reports
🟣 **Enterprise**	Unlimited	All features + priority support

Step 2: Register Your Account

After license activation, you'll create your staff login:

- **Full Name** — Your display name
- **Email** — Your work email (used for login)
- **Password** — Minimum 6 characters

> 📧 *Check your inbox for a confirmation email before signing in.*

Step 3: Set Up Your Organisation

On first login, complete the Organisation Onboarding form:

Field	Description
Organisation Name	Official registered name
Trading Name	Name used in daily business
Registration Number	Business registration ID
Tax ID (TIN)	Tax identification number
Region & Address	Physical location details
Phone & Email	Organisation contact info

After onboarding, you'll land on the **Executive Dashboard** — your daily command centre.

📊 Executive Dashboard

> ***Route:*** *`/` (Home)*

Your real-time portfolio health at a glance.

KPI Cards (Click any card to drill down!)

Card	What It Shows	Why It Matters
💰 **Gross Portfolio**	Total outstanding principal	Size of your lending book
📋 **Active Loans**	Number of disbursed loans	Operational scale
⚠️ **PAR 30+**	Portfolio at Risk (30+ days overdue)	Credit quality indicator
🏦 **Provisions Required**	Required loan loss provisions	Regulatory buffer needed

Classification Table

Loans are automatically classified into regulatory buckets:

Bucket	Days Overdue	Provision Rate	Colour
🟢 Current	0	1%	Green
🟡 OLEM	1–30	5%	Yellow
🟠 Substandard	31–90	25%	Orange
🔴 Doubtful	91–180	50%	Red
⬛ Loss	180+	100%	Dark Red

> 💡 ***Tip:*** *Click any KPI card to see the detailed drilldown — including calculation formula, data source, and the individual loans that make up the number.*

👥 Client Management

> ***Route:*** `/data-entry` → ***Clients*** *tab or* ***New Client*** *tab*

Creating a New Client

Navigate to **Data Entry** → **New Client** and select the client type:

Type	Use For
👤 **Individual**	Single person borrower
👥 **Group**	Solidarity/village banking groups
🤝 **Cooperative**	Registered cooperatives
🏢 **SME**	Small & medium enterprises

Required KYC Fields

These fields are **mandatory** per regulatory guidelines:

Field	Description	Example
First Name	As on ID document	Kwame
Last Name	As on ID document	Mensah
ID Number	National identity number	GHA-123456789-0
ID Expiry	Document expiration date	2028-06-15
Date of Birth	From ID document	1985-03-20
Gender	M or F	M
Nationality	Country of citizenship	Ghanaian
Occupation	Current employment	Market Trader
Risk Category	LOW / MEDIUM / HIGH	LOW
Source of Funds	How income is generated	Business profits

Optional Fields

- 📞 Phone number
- 📧 Email address
- 🏠 Physical address & proof of residence
- 💼 Business details (name, type, years, income, expenses)

Searching for Clients

Use the search bar on the **Clients** tab to find clients by: - Name - ID number - Phone number - Group name

---

💳 Loan Management

> ***Route:*** `/data-entry` → ***Loan*** *tab*

Creating a New Loan

Step	What You Enter
1️⃣ **Select Client**	Search and select the borrower
2️⃣ **Loan Category**	Agriculture, Trade, Housing, etc.
3️⃣ **Loan Product**	Filtered by category
4️⃣ **Principal**	Amount to disburse (100 – 5,000,000)
5️⃣ **Term**	Duration in months (1 – 240)
6️⃣ **Interest Rate**	Annual rate (default: 30%)
7️⃣ **Interest Method**	FLAT or REDUCING BALANCE
8️⃣ **Repayment Frequency**	Daily / Weekly / Fortnightly / Monthly
9️⃣ **Penalty Settings**	Type, value, and grace days
🔟 **Purpose**	Detailed description of loan use

Built-in Calculators

The loan form includes three powerful tools:

Calculator	What It Does
🧮 **Loan Calculator**	Shows monthly payment, total interest, total repayable
✅ **Affordability Check**	Validates income vs. expenses vs. repayment capacity
📅 **Amortization Schedule**	Month-by-month breakdown of principal & interest

Affordability Result

Result	Meaning	Conditions
🟢 **APPROVED**	Client can comfortably repay	DTI ≤ 30%, Safety Cushion ≥ 20%
🟡 **CAUTION**	Borderline — review carefully	DTI ≤ 40%, Safety Cushion ≥ 10%
🔴 **REJECTED**	Client cannot afford this loan	DTI > 40% or Safety Cushion < 10%

Loan Workflow

After submission, loans follow this lifecycle:

```
📝 Application → 🔍 Assessment → ✅ Approval → 💰 Disbursement → 📊 Active → ✔️ Completed
                                      ↓
                                  ❌ Rejected
```

💵 Repayments & Collections

Recording a Repayment

> ***Route:*** `/data-entry` → ***Repayment*** *tab*

Field	Description
Loan ID	Select from active loans
Amount	Payment amount received
Payment Date	Date of collection (default: today)
Reference	Auto-generated unique ID

Repayment Trends

> ***Route:*** `/repayments`

View a **60-day rolling trend** of collections:

- 📈 **Area chart** showing daily collection totals
- 💰 **Total Collected** over the period
- 📊 **Payment Count** and **Average Daily Collection**
- 📥 **Export** to CSV or PDF

📱 Field Operations (Offline)

> ***Route:*** `/field-operations`

Designed for loan officers working in the field — **works even without internet**.

Three Tabs

Tab	Purpose
📋 **Collections Queue**	Clients due for collection today
➕ **New Collection**	Record a field collection with evidence
📜 **All History**	Past collections with verification status

Recording a Field Collection

The collection form captures everything needed for audit:

Feature	Details
👤 **Client & Loan**	Select client, then their active loan
💰 **Amount & Method**	Cash, Mobile Money, or Bank Transfer
📍 **GPS Location**	Auto-capture with accuracy indicator
📸 **Receipt Photo**	Camera capture or file upload
✍️ **Digital Signature**	Client signs on-screen
📝 **Notes**	Additional comments

> 🔌 ***Offline Mode:*** *If you lose internet connection, collections are saved locally and automatically sync when you're back online. Look for the network indicator in the top-right corner.*

🏛️ Regulatory Compliance

> ***Route:*** `/regulatory-reports`

Overview

The compliance dashboard shows your institution's status at a glance with the **Tier Compliance Widget** at the top.

Five Tabs

1️⃣ Capital Adequacy Ratio (CAR)

Component	Description
Tier I Capital	Paid-up capital + reserves – deductions
Tier II Capital	Revaluation reserves + subordinated debt (capped at Tier I)
Risk-Weighted Assets	Assets weighted by risk category (0%–100%)
CAR = Capital ÷ RWA	Must be ≥ minimum (varies by tier)

2️⃣ Liquidity Ratio

```
Liquidity Ratio = Liquid Assets ÷ Current Liabilities × 100
```

Must meet the minimum threshold set by your regulator.

3️⃣ Loan Classification

Automatic classification of your entire portfolio into regulatory buckets with provisioning calculations.

4️⃣ Prudential Returns

Track filing deadlines and submission status for regulatory reports.

5️⃣ AML/CFT Compliance

Anti-money laundering monitoring and reporting requirements.

📑 Financial Reports

> ***Route:*** `/financial-reports`

Five Tabs

Tab	Contents
📊 **Financial Statements**	Balance Sheet, Profit & Loss, Cash Flow
💹 **Profitability**	ROA, ROE, Net Margin, Yield on Assets
📉 **PAR Analysis**	Portfolio aging by classification + trends
🏦 **Deposits**	Deposit sources, maturities, concentration monitoring
🛡️ **Governance**	Risk indicators, stress tests, concentration risk

Key Ratios Tracked

Ratio	Formula	Good Benchmark
Net Interest Margin	(Interest Income – Interest Expense) ÷ Avg Assets	> 8%
Operational Self-Sufficiency	Operating Revenue ÷ Operating Expenses	> 120%
Return on Assets (ROA)	Net Income ÷ Total Assets	> 2%
Return on Equity (ROE)	Net Income ÷ Total Equity	> 15%
Cost-to-Income	Operating Expenses ÷ Operating Revenue	< 70%

🎯 Board & Investor Views

Board Dashboard

> ***Route:*** `/board`

Strategic-level reporting for board members with **period selection** (Weekly / Monthly / Quarterly):

Tab	What Board Members See
📋 **Executive Summary**	High-level financial overview for the selected period
📈 **Strategic KPIs**	Long-term trend metrics and targets
⚠️ **Risk Analysis**	Credit, liquidity, and operational risk assessment
📊 **Trends & Peers**	Quarterly performance charts + industry comparison

Investor / Shareholder Portal

> ***Route:*** `/shareholders`

Feature	Description
💼 **My Portfolio**	Individual shareholding, value, dividends
📊 **Portfolio Summary**	All shareholders' holdings (admin only)
💰 **Dividend Management**	Record and process dividend payments (admin)
📈 **Performance Charts**	Allocation, trends, and returns

🏢 Department Reports

> ***Route:*** `/departments`

Deep analytics by department with period selection (Daily / Weekly / Monthly / Quarterly).

Three Departments

Department	Key Metrics
🧮 **Accounts**	Total Assets, Liabilities, Equity, Income, Expenses, Net Income, GL Summary, Trial Balance
💰 **Collections**	Recovery rate, collector performance, daily trends
📋 **Credit**	Approval rate, rejection analysis, officer scorecards, pipeline status, product performance

👤 User Management & Roles

> ***Route:*** `/user-management`

Staff Roles

Role	Access Level
🔴 **Admin**	Full access — settings, users, all reports
🟠 **Manager**	Dashboards, reports, limited user management
🟡 **Credit Officer**	Loan applications, approvals, client management
🟢 **Collections Officer**	Repayments, field operations, collector tracking
🔵 **Collector**	Field operations only — collections, GPS, signatures
⚪ **Viewer**	Read-only access to dashboards

Client Assignments

- Assign specific clients to field staff
- Collectors see only their assigned clients
- Helps manage workload distribution

⚙️ Settings & Configuration

> ***Route:*** `/settings`

Organisation Tab

Edit your institution's details: - Organisation name & trading name - Physical address, region, postal code - Phone, email, website

Compliance Tab

Configure your regulatory parameters:

Setting	Description	Example
Institution Tier	Your regulatory classification	Tier 4 — MFC
CAR Threshold	Minimum capital adequacy ratio	10%
Liquidity Threshold	Minimum liquidity ratio	15%
Max Loan per Borrower	Lending cap per client	50,000
Single Obligor Limit	Max exposure to one client (% of net worth)	10%

🔄 Offline Sync & Conflict Resolution

How Offline Mode Works

```
📱 Field Officer goes offline
        ↓
💾 Data saved to device (IndexedDB)
        ↓
🔄 Auto-queued for sync
        ↓
📶 Internet reconnects
        ↓
☁️ Data syncs to server automatically
        ↓
✅ Confirmation shown
```

Sync Order

Data syncs in dependency order to maintain integrity:

```
1. Clients   →  2. Loans   →  3. Repayments   →  4. Field Collections
```

Conflict Resolution

> ***Route:*** `/sync-conflicts`

When a conflict occurs (e.g., same client created on two devices):

Resolution	What Happens
🏠 **Keep Local**	Your offline version overwrites the server
☁️ **Keep Server**	The server version is kept, local discarded

Network Status Indicator

Look for the indicator in the **top-right corner**:

Icon	Meaning
🟢 **Green**	Online — data syncs in real time
🔴 **Red**	Offline — data saved locally

🌍 Sales Demo (Multi-Country)

> ***Route:*** `/sales`

For Potential Buyers

The sales demo showcases MFI Clarity to prospective buyers from any African country.

Supported Regulatory Frameworks

Country/Region	Regulator	Currency	CAR Min	Language
🇬🇭 Ghana	Bank of Ghana (BoG)	GHS (₵)	10%	English
🏦 WAEMU Zone	BCEAO	XOF (FCFA)	8%	Français
🇰🇪 Kenya	Central Bank (CBK)	KES (KSh)	14.5%	English

What the Demo Shows

1. **Country Selector** — Pick a regulatory framework
2. **Regulatory Comparison** — CAR, liquidity, AML framework side-by-side
3. **Classification Buckets** — Each country's loan classification with provision rates
4. **Institution Tiers** — Minimum capital, lending limits per tier
5. **Feature Showcase** — All platform capabilities in the selected language
6. **Live Demo Access** — Explore the full app with sample data

> 🌐 ***Auto-language:*** *Selecting BCEAO automatically switches to French.*

Adding a New Country

When you close a deal with a new market, the onboarding process is:

```
1. Define the country's regulatory config (classification, CAR, tiers)
2. Add to the registry
3. Add translations (if needed)
4. Create country-specific chart of accounts
5. Deploy — the app adapts automatically
```

📌 Quick Reference

Keyboard Shortcuts

Key	Action
`Tab`	Navigate between form fields
`Enter`	Submit forms
`Esc`	Close modals and dialogs
Type to search	Filter dropdowns as you type

Export Options

Data	Formats	Location
Portfolio Aging	CSV, PDF	Portfolio Ageing page
Repayments	CSV, PDF	Repayments page
Department Reports	CSV	Department Reports page
Client Documents	Individual files	Data Entry → Find Docs
Audit Trail	CSV	Audit Trail page

URL Quick Links

Page	URL
Dashboard	`/`
Data Entry	`/data-entry`
Field Operations	`/field-operations`
Regulatory Reports	`/regulatory-reports`
Financial Reports	`/financial-reports`
Settings	`/settings`
Sales Demo	`/sales`
